Exhibitor Introduction	<p>Rohde &amp; Schwarz Korea, founded in July 2000, has partnered with Korean customers by carrying forward the innovation and pioneering spirit developed through the 90-year history of Rohde &amp; Schwarz GmbH in Germany.</p> <p>Since developing Europe's first high-frequency measuring instrument in 1932, Rohde &amp; Schwarz has made key contributions to RF measurement technology, such as producing the first frequency standard and supplying the world's first military software-defined radios. The company's commitment to reliability and innovation has earned it a leading role in the field.</p> <p>Rohde &amp; Schwarz Korea brings this pioneering spirit to Korea, supporting the nation's cutting-edge IT advancements with advanced Test &amp; Measurement solutions. With decades of expertise in RF measurement, the company is a solid partner for those seeking to expand and evolve antenna technology. Beyond being a supplier, Rohde &amp; Schwarz Korea stands as a trusted partner, offering comprehensive support from product supply to service.</p>
