

## Exhibitor Introduction

Name of Company	<i>Doosan</i>	Company Logo
President	<i>Seungwoo Yoo</i>	
Address	<i>10, Suji-ro 112beon-gil, Suji-gu, Yongin-si, Gyeonggi-do, Republic of Korea</i>	
Website	<a href="https://www.doosanelectronics.com/kr/product/Newbusiness_5GAntennaModule">https://www.doosanelectronics.com/kr/product/Newbusiness_5GAntennaModule</a>	
E-mail	<i>jeonghwan5.lee@doosan.com</i>	
Tel.	<i>82-10-2426-3141</i>	
Contents of Exhibit	<i>5G mmWave antenna module and real-time beam steering</i>	
Exhibitor Introduction	<p><i>Our Antenna module, mounted on a rotating rotator, performs real-time beam steering towards the receiving antenna. By observing the real-time measured receiving power, you can see that our antenna module continuously tracks the receiving antenna.</i></p> <p><i>We provide 58 pre-defined BeamBooks to support fast beam steering. Additionally, we offer various beam shapes, such as Wide Beam, to control the beam according to the situation</i></p>
